

IDENTITY

Of Young Man Killed at Union Street Monday.

Told Newark Boy He Was Clown in The Wallace Circus

And Was Enroute to His Home in Marion, Ind.-- First Thought to be Zanesville Man--Hund- reds View Remains at McGonagle's.

The identity of the stranger who had a conversation last week as How- was killed by B. & O. passenger train No. 102, Monday morning at the Union street crossing, remained a mystery all day Monday and Tuesday. During

Advocate artist's sketch of unknown man killed at Union street crossing. It is now believed he was a Wallace circus clown from Marion, Ind.

this time over 1500 people called at McGonagle's undertaking establishment and viewed the remains, but every clew to his identification failed when followed up by the Advocate.

Several oil men from about Utica, said the dead man resembled Grover Hedge, who until six weeks ago was employed in the Utica office of the Logan Natural Gas company, but was now located at Sugar Grove. Their identification however, was not positive.

Another was positive that the body was that of Robert George of the Ninth ward, Zanesville, but this proved to be untrue. George was found in Zanesville to be alive and well.

Several boys gave the best clew as to who the stranger was, and efforts were made along this line to find his name and residence. The boys who live in East Newark met the dead man at the corner of Buena Vista and East Main streets and began "acting the fool" with them. He told them that he had been a clown in the Wallace circus and had left the show Saturday at Cambridge. He was without money and attempted to get a meat at a restaurant in the East End without success. He showed them a handkerchief which had bloodstains upon it, which he said was caused by nose bleed. He also showed them a pair of new red socks which he had in his pocket, and said he was going to Columbus.

The boys are positive that the man at McGonagle's is the same man they were talking with on Saturday night. The Advocate obtained a clew to the identity of the dead man Tuesday noon when it learned that the stranger had talked to Fred Howard, a young man living at 232 Indiana street last Saturday in East Newark. Young Mr. Howard says that he saw the man, who is now dead and that he asked him to tell him where he could get something to eat.

He told Howard that he had been a clown and athlete with the Wallace show, which is now touring Eastern Ohio, but had left the circus at Cambridge last Saturday and had come to Newark where his money gave out. Howard and the young man had quite a talk and the latter said he had had a little trouble in getting something to eat. It seems certain that the dead man is the one with whom Howard

During the day Tuesday a young woman named Miss Knight called at McGonagle's and after looking at the dead man's features declared her belief that he was her brother whom she had not seen for a year. Miss Knight who lives at Mrs. Black's, 67 Canal street, says that her brother when she last heard of him was traveling with a circus. Her brother's name is Chas. Knight. Later Miss Knight changed her mind and said that while the man looked like her brother she was not by any means satisfied that it was he.

The stranger who jumped from a B. & O. freight train at Union street, when his hat blew off Monday and was killed by a passenger train on another track was about 21 or 22 years of age. He was 5 feet 3 inches in height, had a dark complexion, very dark wavy hair, and wore a dark suit with a black shirt, red necktie, turn-down collar, round soft hat, and No. 6 shoes. He wore a new suit of underwear and he looked as if he had just come from the bath.

Marks have been discovered on the man's arm that look like the letters "H. K."

It is now said that he told one of the boys with whom he talked last week that he was from Marion, Ind. and was on his way to that city.

The Advocate has made an effort during the day to locate the Wallace circus and ascertain the name of the clown who left the show last Saturday. The Advocate telephoned to Cambridge and was told that the circus was in Canton today. A telephone message was then sent to Canton and a reply came that the circus was not there. After looking in several of the theatrical papers and inquiring in vain from a number of people who keep track of circus routes, the Advocate phoned its Columbus correspondent, who made inquiry at the Columbus newspaper offices, but up to 3:30 p. m. the circus was not located.

It is now believed that the dead man is a Wallace circus clown whose home was in Marion, Ind., but the identity is not yet complete.

IN SCOTLAND TODAY.

Dalkeith, Scotland, May 12—King Edward and Queen Alexandra who arrived in Scotland yesterday are today being enthusiastically greeted by the Scotch people. Twenty thousand

gathered at the palace gates to greet their majesties this morning, and when the royal couple appeared, the usually phlegmatic Scotchmen broke out in wild cheers.

COST OF BLOCKADE.

Berlin, May 12—It was officially announced today that the Venezuelan blockade cost the government half of the amount of the claims recovered.

Catholic Knights.

St. Louis, Mo., May 12—The supreme court of the Catholic Knights of America, representing 900 subordinate councils in the United States with a membership of 25,000, will hold a four day session here beginning today. The Catholic Knights are organized in every state and territory in the Union with the exception of Maine, New Hampshire and Vermont. Each state will have from one to three delegates in the convention.

Local Option.

Manchester, N. H., May 12—After 50 years of ostensible prohibition, every city and town in New Hampshire is today voting on the question of license under the new local option law. Great interest is shown all over the state, and a big vote is looked for. It is expected that the larger cities will vote yea, and a majority of the smaller places no.

PRESIDENT

Greeted Enthusiastically by Leland Stanford University Students This Morning.

Palo Alto, Cal, May 12—After a quiet restful night spent on the cars, President Roosevelt and party departed this morning for San Francisco, where a monster demonstration will be accorded the chief executive upon his arrival. The President was given a forecast of what to expect in San Francisco when the special pulled into this place. Immediately upon his arrival he was greeted by officials from Leland Stanford Jr. University, and committees from San Francisco. Students from the university, about 1100 of them, were out in force, and the heartiness with which they "rahhey" their welcome to the President brought a smile of rare appreciation to his face. The President and party were driven to the university where the chief executive addressed the students.

SALONICA IN A STATE OF SIEGE

TURKISH TROOPS GUARD THE TOWN--SHIPS WATCH HARBOR'

Open Hostilities Believed Certain To Follow--Daily Clashes Foreign News of Interest.

London, May 12—The Salonica correspondent of the Times cables that there are 10 foreign men-of-war in the harbor of Salonica. A state of siege has been proclaimed and Turkish troops are guarding every square yard of the town. Quiet prevails.

The scheme of the revolutionary leaders may hang fire, but it is not likely that they will be abandoned. Documents have been found which convince the authorities that the recent explosions were carried out by officers of the Bulgarian Royal Engineer.

The general opinion prevails, the correspondent says in conclusion, that the only way to clear the atmosphere is by a war with Bulgaria.

In an engagement between Bulgarians and Turkish troops, recently fought at Ipagari, near Monastir, many Bulgarians were killed and 74 were made prisoners.

Another fight is reported to have occurred at the village of Borestrovo, near Demir-Hissar. The village was burnt.

The panic in the Monastir district has not abated.

The action of Turkey against the Albanians is greatly approved in Berlin, where it is generally conceded that the Porte really has shown a desire to do its best to bring order out of the chaos in the Balkans and carry out the promised reforms.

TO OPEN PORTS.

Shanghai, May 12—The Chinese Treaty Revision Commissioners have received from the Chinese Foreign Office instructions to decline further discussion with the American Commissioners on Article 12 of the proposed new treaty, which refers to the open-

ing of ports in Manchuria to foreign trade.

JAPAN ON GUARD.

Yokohama, May 10—Alarming and conflicting rumors are heard here to the effect that the Russian concentration of troops is menacing New Chwang and Korea. It is said that Japan is indignant at Russia's bad faith and will calmly maintain her treaty rights.

STARTS FOR PEKING.

St. Petersburg, May 12—Paul Les-sar, Russian Minister to China, has started for Peking.

PLAGUE SPREADS.

Lima, Peru, May 12—Dispatches from Pisco say the plague is spreading.

DREYFUS CASE.

Paris, May 12—The Dreyfus case will be referred directly to the court of cassation by Minister of War Andre.

HOSTS ARE STARVING.

Hongkong, May 12—Acute distress prevails in the Nan King and Tsun Fa District of Kwang Si Province. It is estimated that 73,000 persons are starving. The people of Hongkong are sending relief.

ANTI-SEMITIC RIOTS.

St. Petersburg, May 12—The Minister of the Interior has circulated a long official account of the recent anti-Semitic outbreak at Kischeneff, capital of Bessarboia. He says 45 persons were killed and 424 injured, and that 700 houses and 600 shops were looted. The Minister attributes the rioting to religious ill-will and reports of ritual murders, leading to a clamor for an attack on the Jews, and says the immediate cause of the outbreak was the ill-treatment of a Christian woman by a Jew. The destruction of Jewish property and the murders followed.

The Interior Minister on the direct instruction of the Czar, has notified the Governors that they will be held personally responsible for their failure to take proper measures to prevent similar acts of vengeance.

Italian Freed

Maldo, Mass., May 12—In the district court this morning, Tommaso Lombardi, an Italian, under arrest on suspicion of having been connected with the murder of Miss Nellie Sturtevant, was discharged, the government having no evidence to show that he was in any way guilty of the crime.

KAISER ILL TODAY.

Strausburg, May 12—Kaiser Wilhelm who is visiting here, is indisposed today. He had a severe chill this morning and the program for the day has been cancelled.

SERIOUS

Crisis Threatens in Strike of Laundry Workers.

Twenty Thousand Union Laborers Are Thronging the Streets.

Unions Say Laundries Can Not be Started by Non- Union Workers--A Biscuit Company Lock Out--Other Chicago Concerns Affected.

Chicago, May 12—While an army of undoubtedly refuse to haul linen from laundries that are under the union ban.

While the laundry workers face the most important step in their strike the bakers are massing for a determined fight on the National Biscuit Company, anticipating trouble the company has closed its largest plant in Chicago, practically locking out 1,500 men.

A great wave of unrest has swept through the immense lumber district of the southwest side along the river, and the strike of 1,500 tallymen and inspectors promises to spread to lumber handlers and other workmen.

The 6,000 strikers at the Deering division of the International Harvester company, who rejected the offer of the company to reinstate all strikers without discrimination and take up the grievances, are supported by over 1000 strikers from the Lassig Bridge works, adjoining the Deering plant. These men want more pay.

Electrical workers at the Kellogg switchboard and supply company, numbering nearly 1000 men, are out because they claim the company refused to discharge non-union employees who refused to join the union.

STODDARD

Post and Author Died at Home in New York City Today at the Age of Seventy-Eight.

New York, May 12—Richard Henry Stoddard, the poet and author, died at his home in this city today, after being confined to his bed for a week with rheumatism of the head and ill incident to old age. Mr. Stoddard was born in Ingham, Mass., on July 2, 1825. His first volume of poems was published in 1848. It was entitled "Footprints."

THE REICHLIN MURDER.

Lorain, O., May 12—About the only progress in the Reichlin murder case along the lines of increased effort towards amassing a big money reward for the apprehension of the murderers. Five thousand dollars have been pledged, the Knights of Columbus have aured Mayor King that they will add \$2,000 more and the special committee named by St. Joseph's church will inaugurate an address chain plan of collecting funds from other Catholic congregations with a view to clearing Father Walzer of suspicion.

INTEREST

In Mrs Molineux' Suit for Divorce Is Revived.

Sioux Falls, S. D., May 12—Renewed interest in the case of Mrs. Roland H. Molineux has been aroused by the fact that six months has now nearly elapsed since she took up her residence in Sioux Falls, when she will under the South Dakota statutes, be a full-fledged citizen of this city and date and enabled to institute her suit for divorce. This concerned a fact to divorce just what will be done when the six month expire. Whether she will immediately commence her suit or wait for several weeks, as is sometimes done by eastern people who come to South Dakota for divorce is not known. There is every indication that extraordinary effort will be made to keep the paper in her divorce suit from becoming public until after the final hearing.

TRIAL BEGINS.

Liverpool, May 12—The trial of the four seamen of the British steamer Veronica, who are charged with having murdered the captain and crew and then set fire to the vessel in December last, opened at the assizes today. The man pleaded not guilty. The Veronica sailed from Ship Island, Miss., in the early part of last December. That was the last heard of her until the four seamen now on trial were picked up on a raft at sea by the British steamer Brunswick in January. The men were brought to Liverpool, and on the strength of disclosures made by the colored cook, who accompanied them they were placed under arrest charged with mutiny, arson and murder.

A German photographer named Kunwald, when taking a picture of a lady of doubtful age, places sheets of celluloid behind the negative and the printing paper, thus producing a very offensive effect, which hides the disagreeable of age.

GRANVILLE

METHODIST MINISTERS ATTENDING CONFERENCE.

Presiding Elder Norcross Presides Over Meeting—Twenty Present. Other News Notes.

Granville, Ohio, May 11.—The Ministerial Association of the Methodist Episcopal Church, Columbus District, Ohio Conference, convened in the Methodist church here Monday evening with about twenty ministers in attendance, with Presiding Elder, Dr. A. H. Norcross presiding. The meeting opened with a sermon, "Life from Human and Divine Standpoints," by Dr. B. L. McElroy, pastor of the Broad street church of Columbus.

This morning's session opened at 8 o'clock with devotional services by Rev. J. E. Rudsill, of Columbus, followed by a Mission service, conducted by Rev. W. C. Hartinger of Columbus, and Rev. A. Gilruth, of Reynoldsburg, who spent several years in foreign fields. This was followed by an address by Rev. Charles Laughlin of Columbus, on "New Testament types of Conversion," with a review, "The Religion of a Mature Mind," by Rev. N. W. Good of Columbus.

This afternoon there was a symposium on the life of Wesley, including an address by Dr. F. Dimmick of Columbus on "How to Utilize the Wesley Bi-Centennial," with a review, "John Wesley as a Social Reformer," by Rev. F. M. Swinehart of Columbus, and a paper, "John Wesley as a Spiritual Force," by Rev. L. C. Haddock of Columbus.

This evening Dr. E. S. Lewis of Columbus, will preside, and Professor R. T. Stevenson of Delaware will deliver an address on John Wesley. The ladies of the church served dinner and supper today, for the ministers in attendance.

The members of Kappa Phi Sorority gave a picnic supper at Spring Valley on Monday afternoon in honor of this year's senior members of the Sorority.

The Denison and Washington-Jefferson ball teams are contesting for honors on Beaver Field this afternoon.

At the meeting of Altamaha lodge No. 296, Knights of Pythias to be held tomorrow night, there will be work in the esquire rank.

James Gardner, formerly agent for the T. & O. C. railroad company, at this point, visited friends here on Sunday.

Prof. C. L. Williams of Denison University, has received and accepted an invitation to deliver an address at Princeton University on commencement day.

FIVE SCHOOLS

Represented in the Madison Township Sunday School Convention Held at Pleasant Chapel.

Clay Lick, May 12.—The Madison township Sunday School Convention was held last Sunday afternoon at Pleasant Chapel, southwest of town. Five schools participated in the rendering of the instructive program. As is characteristic of Clay Lick, the Sunday school made the best showing from both a literary and musical point of view; in short the younger Clay Lickians emulated their own previous literary and musical attainments and especially was this true in the case of Miss Hattie Kennedy, who rendered a recitation, "The Two Cups," in a way that won the admiration of all present. It is quite probable that Miss Kennedy will speak at the county convention to be held at Newark this month.

Rev. John Shepherd who has been preaching here for a year or two, has labored heroically for the Master's cause, and that his efforts are being fruitful of good there can be no longer any doubt.

BIRTHDAY

Of Master Horace Riker Sisson Celebrated in Fine Style at Granville—Monday Afternoon.

Granville, May 12.—Master Horace Riker Sisson celebrated his 6th birthday anniversary at his home in Granville the 11th inst. The invitations were rather unique, having his photo-

graph in one corner of the card. It was an ideal afternoon in May for a lawn party and from 3 o'clock until 6 the little folks enjoyed every minute of it. The amusements of the afternoon were varied and full of enjoyment. A peanut hunt was full of fun. The one who found the most peanuts was made captain of the procession. Each boy and girl donned a paper cap and with flag in hand, marched and counter-marched to music furnished by Mrs. A. H. Sisson. Other amusements followed: even Grandpa felt young enough to join in the sport. Granville's noted caterer furnished the splendid refreshments.

Mrs. J. M. Swartz and grandma also furnished cakes. The crowning part of this delightful time was a Jack Horner pie. Each little guest was requested to take hold of a ribbon, and when the word was given they drew for under the cover of the pie, not a pin but a Brownie of every imaginable design. The little ones expressed themselves as having had a most delightful time, and could they have seen (as we did) the pleasure Master Horace had in looking over his many and varied presents, they would have felt well repaid for giving. Mr. and Mrs. A. H. Sisson were ably assisted in entertaining their guests, about 30 in number, by Misses Kittie and Ella Humphrey, Miss Minnie Jones and Mrs. J. M. Swartz.

SMALLPOX

Thirty Cases at Zanesville and Officials Admit the Gravity of Situation in Clay City.

Zanesville, O., May 12.—The gravity of the smallpox situation is at last admitted.

For weeks and weeks the health of fliers, the newspapers and the doctors have been suppressing the news concerning the epidemic that is here and has been here for weeks and months, but Dr. J. G. Holden, the recently appointed member of the board, has just given out a public statement concerning the situation, in which he advises stringent measures to stamp out the disease. Vaccination and the erection of a pest house for the treatment of cases are advocated by him.

Two new cases were officially carded Monday—one in Linden avenue and the other in Lee street. In fact all cases in the city, and there are more than 30 officially carded, are of a sporadic nature, and the development of cases here and there, regardless of locality, is bothering the officials more than anything else.

Considerable alarm exists among the residents of the city, and it is learned that the vaccination orders are being pretty generally followed.

COSHOCOTON GAS.

Coshocoton, O., May 12.—Judge Donnelly has granted a temporary order restraining the Coshocoton Gas company from shutting off gas from consumers who declined to sign their contracts, and compelling the company to follow the wording of its franchise.

LOCAL OPTION.

Delaware, Ohio, May 12.—The city council set Monday, May 25, as the date for an election under the Beall local option law.

Peaches and plums from the Cape, with such dainties as custard apples, grape fruit and pears, are now obtainable in the London fruiterers' shops. The peaches compare very unfavorably in appearance with representative home fruit, but the plums are very fine.

His Antlered Escort In the Park. Above him the wild skies bending, Beneath him the wastes of snow, Through the hush of the forest wending, And over the bleak plateau He rode, with his strong heart glowing, In a clime of old held dear, And the winds of the west were blowing With the music he loves to hear.

Beside him, with clanking saber, The brown cheeked trooper rode, Yet he passed, as friend and neighbor, Where the things that people the places Of mountain and hill and fen Were waiting, with kindly faces, To welcome the chief of men.

And so that they, too, might render Their tribute of love to him, Forth, then, in their strength and splendor From the forests dark and dim, From the wastes and the gushing fountains, Like a leaping wave of flame, The antlered kings of the mountains In royal escort came.

Down through the wild wastes riding, They followed him over the snow, By the peaks and the cloud mists hiding And down to the broad plateau, And never, in song or story, In journey or feast or fray, Rode king or khal in his glory As this men rode that day. —John S. McGroarty in Los Angeles Times.

OHIO NEWS

MR. CLEVELAND NOW SAID TO BE A RECEPTIVE CANDIDATE.

Knapp's Trial—Mob Gathered—Boy Shoots Brother—Took the Wrong Medicine—Notes.

Middle Bass Island, O., May 12.—Grover Cleveland may be said to be a receptive candidate for the Democratic nomination for President in 1901. When asked last night if he would be a candidate, he replied: "I cannot answer that question." "If nominated would you accept?" "I cannot answer that now either." "I would only invite the censure of the people." Ex-Secretary of the Treasury Chas. Foster, a close friend of Cleveland who is here fishing with him, says: "Mr. Cleveland does not want the nomination, but would take it, he thinks as a duty to his party."

AGED 110 YEARS.

Upper Sandusky, O., May 12.—Peter Stansley died here this morning aged 110. He leaves a wife aged 103. They were undoubtedly the oldest couple in the state. Both claimed to be of Alaskan parentage, but were here regarded as negroes.

CLAIM SELF-DEFENSE.

Norwalk, Ohio, May 12.—Wheeler Kimbo, Walter Stratton and Lorenz Martin, the three negroes brought here from Fremont on account of threatened mob violence, have been in good spirits today. They claim the shooting was done in self-defense.

KNAPP'S TRIAL.

Hamilton, Ohio, May 12.—Prosecuting attorney Warren Gard has set the hearing of Alfred O. Knapp, the confessed wife strangler, under indictment for the murder of Hannah Goddard Knapp, for Tuesday, June 10.

IN AN ICE CHEST.

Conneaut, Ohio, May 12.—Frank Johnson, a fruit dealer, stepped into a large refrigerator to arrange some fruit. The door swung shut and was securely closed by a spring lock. On account of the thickness of the wall his cries were not heard and he remained in the ice box for about six hours. When finally released from his queer prison he was almost dead and in a nearly frozen condition. By the use of powerful restoratives he was brought back to life, but is now in a serious condition.

NOT TO KISS HER.

Cleveland, Ohio, May 12.—At the hearing of the divorce case of Mrs. Julia C. Hiller against Frank Hiller, the complainant said that her husband abused her shamefully and refused to support her. She said he put his mouth against hers, not for osculatory purposes, but to prevent her from breathing and to kill her. The testimony showed Hiller's abuse of his wife aroused the ire of his landlord who gave Hiller a sound thrashing since when he has disappeared. Mrs. Hiller got her divorce.

A MOB GATHERED.

Marysville, Ohio, May 12.—Marshall Murphy arrested Howard Eckles, aged 21, here on a warrant sworn out by the authorities at London, Ohio, charging him with assaulting Lilah, the ten-year old daughter of Elmer Henry. The girl is in a dangerous condition. It is claimed that a mob had congregated at London when the child's serious condition became known, and he probably would have been lynched had he not been given a tip to run.

OHIO BRIEFS.

Lima—Carl Douglass, 15, son of Roy Douglass, a farmer, accidentally shot and fatally wounded his brother, Milt, aged 13.

Lima—Stephen D. Carran went to a physician and had two medicines prescribed. One was internal, the other external. Carran drank the latter, and now lies at the hospital in a dangerous condition.

Wooster—Peter Felix, aged 28, married, living near Burton City, was shot and mortally wounded by Johnny Hershey, aged 17. Hershey has a mania for shooting arms and pulled out one of three he had in his pockets, pointed it at Felix and pulled the trigger. The gun happened to be loaded and the bullet lodged in Felix's stomach, causing a wound which physicians say must prove fatal.

Oberlin—Henry C. King will be in-

augurated president of Oberlin college tomorrow. Over sixty colleges and universities will have personal representatives here.

The Seven Sleepers.

The Seven Sleepers were seven noble youths of Ephesus, who in the time of the Decian persecutions, it is said, fled to a certain cavern for refuge. They were pursued, discovered and walled in the cave, the perpetrators of the deed hoping to mete out a cruel and horrible death. However, according to the legend, they were made to fall asleep and were miraculously kept alive for nearly two centuries. Their names are given as Maximian, Malchus, Martinian, Denis, John, Serapion and Constantine.

NURSING MOTHERS

A mother's poor health is bad enough for the mother but worse still for the nursing baby.

Mothers find Scott's Emulsion a nourishing and strengthening food. If the breast milk is scanty or thin Scott's Emulsion will make it rich and more abundant.

When mothers take Scott's Emulsion the babies share in the benefits. Thin babies grow fat. Weak babies get strong.

We'll send you a little to try, if you like. SCOTT & BOWNE, 409 Pearl Street, New York.

\$25 CASH PRIZE FOR A NAME FOR THE NEW BLOCK

Our new block corner Fourth and Church streets is almost completed, and we want a suitable name for it. To the person who submits the name that is accepted \$25 will be given. The contest is free to everybody in Licking county, but no person can offer more than one name.

Go around and see the big block, look at the stores, flats and big hall and see the immense room now being built for the Powers-Miller company; think of a suitable name for the block write it down, sign your own name and address and then send or mail it to the Newark Real Estate and Improvement company, 14 North Park Place. A committee will open the letters and the names suggested (without the names of those submitting them) will go before the directors, who will choose a name and the prize will be awarded. It costs you nothing and you may get \$25 for your trouble.

The company wants an appropriate name and is willing to pay for it. All answers must be received by noon of June 1, 1933.

Look the new block over and name it but be sure to have your name in the office of the Real Estate company by noon on June 1.

We have some very desirable houses and lots for sale for cash or on easy terms. If you want to sell your property see us. If you want to buy call at our office. WE CAN SUIT YOU AND SAVE YOU MONEY.

HOSTETTER'S STOMACH BITTERS

WOMAN'S GENTLE NATURE CALLS FOR GENTLE TREATMENT

Delicately formed and gently reared, women will find, in all the seasons of their lives, as maidens, wives, or mothers, that the one simple, wholesome remedy which acts gently and pleasantly and naturally, and which may be used with truly beneficial effects, under any conditions, when the system needs a laxative, is—Syrup of Figs. It is well known to be a simple combination of the laxative and carminative principles of plants with pleasant, aromatic liquids, which are agreeable and refreshing to the taste and acceptable to the system when its gentle cleansing is desired.

Many of the ills from which women suffer are of a transient nature and do not come from any organic trouble and it is pleasant to know that they yield so promptly to the beneficial effects of Syrup of Figs, but when anything more than a laxative is needed it is best to consult the family physician and to avoid the old-time cathartics and loudly advertised nostrums of the present day. When one needs only to remove the strain, the torpor, the congestion, or similar ills, which attend upon a constipated condition of the system, use the true and gentle remedy—Syrup of Figs—and enjoy freedom from the depression, the aches and pains, colds and headaches, which are due to inactivity of the bowels.

Only those who buy the genuine Syrup of Figs can hope to get its beneficial effects and as a guarantee of the excellence of the remedy the full name of the company—California Fig Syrup Co.—is printed on the front of every package and without it any preparation offered as Syrup of Figs is fraudulent and should be declined. To those who know the quality of this excellent laxative, the offer of any substitute, when Syrup of Figs is called for, is always resented by a transfer of patronage to some first-class drug establishment, where they do not recommend, nor sell false brands, nor imitation remedies. The genuine article may be bought of all reliable druggists everywhere at 50 cents per bottle.

THROTTLING THE IOWA IDEA.

The "Iowa idea" is that the tariff is not only a tax but that it is a robber tax for the benefit of monopoly, and so the Republicans of that state want to get a swipe at the Dingley bill and get a taste of low tariff. But the "Iowa idea" is not to be allowed to get a chance to be heard except on the street corners, in the grocery store and the little shoe shop or out on the fence where the farmer sits and chats with his neighbors. The "Iowa idea" is going to be taken care of by Senator Allison. He is going to the Iowa Republican state convention, where it is feared the "Iowa idea" may break loose and spill all over the country and do something "to hurt the administration." It has been arranged that Allison shall prevent that—if he can.

When Leslie's Weekly refers to the Hon. W. J. Bryan as "the Nebraska grafter" and "Nebraska's political wart" it drops to a level lower than the Police Gazette ever reached in its most sensational days. There never was any argument in calling names, and however much men may desert from Bryan's political views, they must admit that he is honest and incorruptible. There never was any act in his public or private career to give his most venomous enemy any excuse for referring to him as a grafter. Every idea of respectable, decent journalism revolts at such abhorrent calumny.

There has been a marked increase in Irish immigration to this country the last few months, although of course southern and eastern Europe still continue to largely lead. In the last few years the immigration from Ireland has been largely falling off, and had reached what seemed like a permanently low level in point of numbers. One steamer a few days ago, brought over 1,300 Irish, including a large proportion of young men and young women. No less than 5,045 Irish immigrants arrived in New York in April. In January the arrivals of Irish were but 292.

PRINCIPLES, NOT MEN.

(Toledo Bee.)
Less talk about leaders and more discussion of fundamental Democratic principles is what the Democratic party needs. Cleveland and Bryan will die in due course of time, but Democratic principles will live forever. The Democrats who ought to make the platform and the campaign next year are the rank and file; and they should organize not to follow any particular individual in his political wanderings but rather to give expression to Democratic principles. We have had too much one man Democracy in Ohio. That has been the trouble with Ohio Democracy. What we want now is the ascendancy of the rank and file, the promotion of Democratic principles. Let self-appointed leaders go away back and sit down.

SAMPSON RING

Has Been Rooted Out of the Navy Department

While the President Has Not Been Openly Friendly to Schley, the Latter's Enemies Have Been Forced to Resign or Retire From the Service.

Washington, May 12.—John D. Long, Secretary of the Navy—Resigned.

Rear Admiral Crowninshield—retired at his "request."

Lieutenant H. H. Ward—Resigned.

Rear Admiral H. C. Taylor—Detailed as Chief of the Bureau of Navigation.

Lieutenant Richard Wainwright—Detailed as Superintendent Naval Academy.

This is the record of events and men who were prominently connected with the celebrated case of Sampson against Schley, or of the Navy Department ring against the hero of Santiago.

These important changes in the minds of naval officers here, corroborate the private opinion often expressed here that President Roosevelt was convinced of the malice of the ring against Schley and has been secretly his friend. President Roosevelt did not seem to have the courage to appear in open advocacy of the cause of Schley, but set to work immediately after the termination of the trial to punish Schley's enemies and reward his friends.

The resignation of Secretary Long has never been satisfactorily explained. It is only known that he was a bitter antagonist of Schley and it is believed that had he chosen to remain he would have been found to offer him a better place so as to begin the work of dissolving the anti-Schley ring.

There Are Others.

(Mansfield Shield.)
Democratic State Chairman Harvey Garber, of Darke county, thinks Colonel James Kilbourne of Columbus, who was the Democratic nominee for governor two years ago, would make an ideal candidate for United States Senator.

Outrages in the Philippines.

(Pittsburg Dispatch.)
The trial that has taken place has been based upon charges of violation of the rules of war so specific that action had to be taken. The allegation that American officers are unable to perform their duty without violating the laws of war and humanity is a much greater besmirching of the army than anything that has yet appeared.

Rebaking an Organist.

An organist had for some time been trying to extract a compliment from Dr. Nathaniel Emmons, a well known divine of Franklin, Mass. The old doctor possessed a cunning wit, used sparingly, however.

"The organ is not as powerful as it looks," said the organist after one of the services. "Some of the pipes are false, placed there only for effect."
"Ah," exclaimed the doctor, his features brightening, "there are times when even a clergyman may prefer the false to the real."

Best Spring Remedy Ever Formulated. Paine's Celery Compound

Miss E. M. Swan Completely Cured of Terrible Blood Troubles That Doctors Could Not Relieve.

In the month of May, it is an absolute necessity that the body should be furnished with a richer and purer supply of blood for the establishment of a health that can successfully cope with the enervating effects of hot summer weather. Poor blood in May produces listless, ambitious, sleepless, and sorrow-faced men and women who quickly become victims of some organic disease that ends life.

Intelligent people recognize the necessity of cleansing and fortifying the system in May by using Paine's Celery Compound, which speedily removes all poisons from the system, and gives to the thin, watery blood a larger proportion of red corpuscles, and arouses all the organs of the body to healthy action. Paine's Celery Compound does a work for victims of impure blood that commands the attention of the most eminent medical men in the

The most conclusive work of the President against the Sampson ring was the elevation of Rear Admiral Taylor to be chief of Bureau of Navigation. This is the officer whom Admiral Sampson treated in such a manner as to call for a correction.

Sampson undertook to say that on account of the smoke he could not report on the actions of the Indiana, Captain Taylor's ship and the Gloucester. Lieutenant Wainwright was on the Gloucester and while he did not protest against Sampson, he has nevertheless been advanced rapidly and was made superintendent of the Naval Academy at Annapolis.

Rear Admiral Crowninshield was expected after the Spanish war to get a formidable squadron. On the contrary when he went to sea he was given the Illinois. Failing to get a big squadron, the Illinois being taken away from him, he threw up his hands and got out of active service.

On the ship with Crowninshield was Lieutenant H. H. Ward, the officer who was employed by the Navigation Bureau ring to get up the evidence against Schley. Mr. Ward has resigned.

The President, it is believed has been forced to bring these things about largely on the impartial report of Admiral Dewey, who had the courage to give Schley the credit of the victory, and also because the President saw that the popular pressure demanded it.

URGES A GERMANIC UNION.

Bjornstjerne Bjornson Proposes Allying Group of Nations to Reduce War Budgets.

Bjornstjerne Bjornson has outlined his idea of the future grouping of nations in an interesting letter to a friend in Paris, which has been communicated to the Chicago Daily News correspondent by the American novelist, Vance Thompson. Bjornson advocates what he calls a "Germanic union" between Germany, England, Austria, the United States, Switzerland, Scandinavia, the Netherlands and Luxembourg. "In such a union," says Bjornson, "the little states would be forced to renounce all idea of foreign policy. This renunciation would enable them to reduce their military organizations and save enormous sums of money. The initial work in such a union would be colonial and also the concluding of treaties with other nations looking to the wholesale reduction of war budgets."

"I am certain of the success of any proposal in the latter direction emanating from such a formidable Germanic consolidation, but from that to a firm alliance between this vast group of peoples and the creation of a permanent supreme tribunal to decide interstate differences the way is long. What to my mind is essential is that the members of national families should seriously face the question of union, the Germanic group being the one that should open the way."

PLANS

OF THE BEECH ISLAND CLUB AT BUCKEYE LAKE.

First Outing May 14—Plans for New Buildings—A Fine Pier is Being Constructed.

The Directors of the Beech Island Outing club held a meeting on Monday evening at the dental office of Dr. Geo. H. Woods, at which all the directors and a number of enthusiastic members were present for the purpose of making arrangements for the improvement of the island for the coming season. The club has a fifteen year lease on one of the most beautiful islands in Buckeye Lake, and it is the purpose of the members of the club to improve the island by the construction of suitable buildings and the proper decoration of the grounds. Since the building of the Buckeye Lake road all the desirable ground in the lake has gone to a high premium, and the members of the Beech Island club propose to have the most beautiful place on the waters. Contractor Alva Wilcox has been engaged for some time in constructing a landing pier, and Architect Kremer has prepared plans and specifications for the new buildings which are to be pushed to rapid completion.

The new plan of the club is not merely to provide outings at stated times as heretofore, but to make permanent arrangements good for every day in the season, so that members and their families can have the benefit of this resort at all times.

There are now in the neighborhood of 100 stockholders in the club to whom certificates of membership are issued on the payment of a nominal fee. These stock certificates, on account of the recent great popularity of this resort, have gone to a premium. The club has a few more certificates of membership which it is proposed to place with the right people.

The next outing, being the first of the season, will be held on Thursday, May 14. A special car carrying the members to the resort will leave the Public Square at 9 o'clock in the morning.

The preparations for the feast are in charge of Joseph Kuster, who will conduct that part of the affair in his usual and well known excellent way. Members of the club at the first meeting will be permitted to invite friends, residents of the county, but the directors have adopted a rule which will be strictly enforced in the future, that no parties residing in the county who are not members of the club, can attend any of the meetings of the club, or have the privilege of the grounds of buildings.

All the directors and members of the club who were present at the meeting on Monday evening report great interest and enthusiasm among the members of the club for the coming season.

Nice Little Love Story.

A dreamer and a man of action loved a woman. The dreamer said: "I shall write verses in her praise. They will touch her vanity, and she will love me for them."

But the man of action said: "How old fashioned! I shall corner the stock market, and that will bring her." So the dreamer wrote verses, and he induced a friend of his who ran a magazine to print them. And the man of action cornered something or other and became a millionaire.

In the meantime the girl married a man who inherited his money and lived happy ever after.

But the dreamer was so proud of his verses that he didn't care, and the man of action was so busy that he didn't care.

The only one to suffer was the man she married.—Smart Set.

The Public School.

The public school is generally underestimated and is frequently looked upon with indifference. Its influence cannot be expressed in a few words, but its influence is the lifeblood of the home, the community and the nation. Any ordinary imagination can conjure up a state of affairs that would soon come to pass if the schoolhouse were closed. It is the great sieve into which all the nations of the world are thrown, to be shaken down to the common level of obedience and patriotism.—School-master.

The Vital Reason Why

SHREDDED WHEAT BISCUIT

surpasses all other foods.

A shred of wheat highly magnified. Illustrating Absorption.

Shredded Whole Wheat Biscuit is made in the most complete, scientific and hygienic food laboratory in the world.

This laboratory is flooded with sunlight through 30,000 panes of glass and finished in white enamel, marble and mosaic—the veritable home of purity—a place where contamination is impossible.

The wheat is first thoroughly cleansed and all light kernels removed, then thoroughly cooked and spun into thousands of little shreds; each shred containing thousands of little pores; which gives the greatest surface for the absorption of the digestive fluids of any known food.

This insures perfect digestion and immediate relief from constipation.

\$25 CASH PRIZE FOR NAME.

Newark Real Estate and Improvement Company Offers that for Name for New Block—Names Must be Submitted by June 1—Description of the Property.

The handsome new brick block at the corner of Church and Fourth streets which the Newark Real Estate and Improvement company is rapidly finishing, has as yet no name, but the big building is to be christened on June 1, by which time the whole structure will be completed.

Numerous names have been suggested for the big block, but the real estate company which built and owns the property has decided to offer a cash prize of \$25 for a name.

A disinterested committee will be appointed to open all proposals and make a record of the names suggested and by whom proposed. The five directors of the real estate company will then select the most suitable name and the committee by looking at the record will announce the name of the person who proposed the chosen name. To the person, any resident of Newark or Licking county, who suggests the name that is accepted, the real estate company will give \$25 cash.

It will cost absolutely nothing to enter the contest. All one has to do is to write on a slip of paper the proposed name and sign his or her name and address to the paper. This may then be mailed to the Newark Real Estate and Improvement company, or may be left at that company's office, No. 14 North Park Place, Newark, Ohio. All envelopes will remain sealed until placed in the committee's hands.

Ground was broken for the block last October and with the exception of a very few stormy days in the winter the work has gone on rapidly so that now the big building which faces 200 feet on Church street, is almost finished. The rapidity with which the block went up was the talk of the town. Nothing but the very best of material was used in the construction and only skilled mechanics were employed in the building which has been under the personal supervision of Mr. E. W. Crayton, president of the company. The entire east end of the block, three stories, where the mechanics are now working, will be occupied soon by the new Powers-Miller company, dealers in dry goods, furniture, wall paper and house furnishings. This big store, the largest in Newark and the peer of any in Central Ohio, will have nearly 22,000 feet of floor space. It will be as complete and as up to date a store as can be found in Columbus. The building is being arranged expressly for this store and will be a delightful place to visit. Large plate and prism glass make the entire interior as light as out of doors and a big power plant that is being installed will make the immense rooms as light by night as day. A plant is being installed not only to furnish hundreds of electric lights for the block, but to run the two electric elevators as well. The passenger elevator is located near the center of the big room under the sky light, while the freight elevator stand by the east wall. Three members of the new firm have been in the east several weeks buying stock for the big store, and within a few weeks the freight cars will be landing immense stocks of goods in Newark for the new company.

The central portion of the building, the H. J. Hoover part, 40 feet wide, consists of two 90 foot store rooms above which will be the finest dancing hall in the state. No expense is being spared to make this hall and the dining room, reception halls, waiting rooms, etc., that are in connection with it, perfect in all their appointments. The finest of furnishings and draperies will be used so that the hall when completed, will equal any home in Newark in the elegance of its appearance.

The Hoover-Ball company, wholesale dealers in bicycle sundries, sporting goods of all descriptions, etc., will occupy one of the rooms under the dancing hall.

The next room to the west is occupied by Wm. L. Whitecamp who has a fine line of hardware, paints, etc., now on sale.

Next comes the Carnal millinery store and W. I. Francis piano store, both up to date, with splendid stocks of goods.

Adjoining the Carnal millinery store is the room occupied by the Newark Trading Stamp Company which has a big stock of goods but nothing for sale. This is the store where people exchange stamps for various articles of household furniture, silverware, etc.

In the corner room Mr. W. F. Reddie, who comes from Pennsylvania, will soon start a first class grocery. Mr. Riddle traveled over Ohio, Indiana and Illinois seeking a location and he declared that Newark was the best town he has seen, so he decided to locate here.

In the Fourth street part of the block may be found the printing office of Matticks & Company, and the Newark office of the Ohio State Journal. The other Fourth street room has been leased to A. M. Healy.

The entire second and third floors of the west half of the block are divided into twelve flats, nearly all of which are now finished and occupied. The flats are finished in oak, all are neatly papered, and of course are thoroughly modern.

Around the whole building a fine cement walk has just been laid, and within a few weeks a water works system will be installed expressly for the use of the occupants of the block.

What shall this building be named? Can you think of a suitable name for it? The company doesn't want a long, cumbersome name, but one that is easily pronounced and one that will be appropriate for the property. Think it over, select a name, write it down, sign your own name and address and then send or take it to the office of the Real Estate company, 14 North Park Place. The directors will decide which is the most appropriate name submitted and to the one whose suggestion is accepted \$25 will be given.

This contest is free to every resident of Newark and Licking county.

The Newark Real Estate and Improvement company in the past three years has built and sold a great many houses but it is building others in various parts of the city and also has a number of choice building lots for sale for cash or on easy terms.

The other day the company bought the Buehler property extending from Raccoon creek on Main street to Eleventh street and there will be something doing out there one of these days.

Besides buying and selling property, the company sells other people's property, or buys for other people. If you have property for sale or if you want to buy city or farm property, call at the office, No. 14 North Park Place. The company is on the ground floor, has both 'phones and the office is open evenings.

But don't forget the free cash prize contest; \$25 to the one who names the block. Everybody is invited to submit a name, but no person will be allowed to submit more than one name.

All must have names in the office of the real estate company not later than Monday noon, June 1, 1931.

A Sure Thing.

It is said that nothing is sure except death and taxes, but that is not altogether true. Dr. King's New Discovery for Consumption is a sure cure for all lung and throat troubles. Thousands can testify to that. Mrs. C. B. VanMeter of Shepardsville, W. Va., says: "I had a severe case of Bronchitis and for a year tried everything I heard of, but got no relief. One bottle of Dr. King's New Discovery cured me absolutely."

It's infallible for Croup, Whooping Cough, Grip, Pneumonia and Consumption. Try it. It's guaranteed by Frank D. Hall, druggist. Regular sizes 50c. and \$1.00.

What is probably the smallest public school in the world was opened at Easter on the Hallig Nordstrandisch Moor, in Schleswig-Holstein. It has been closed for some time in consequence of the depopulation of the island, but it is about to be opened again with one master and two pupils.

A. B. & O. TRAIN BROKE IN TWO AT CLAY LICK

Injuring Conductor John Dodson Monday Night—Securities Case—A Suit for Taxes.

As B. & O. freight train No. 98, in charge of Conductor John Dodson, was going east last night it broke in two at Clay Lick and traffic was delayed for over four hours. Conductor Dodson was badly cut about the head and face and was compelled to give up his train and return home.

Sue for \$1,000,000 in Taxes.

Louisville, Ky., May 12—Suit for \$1,000,000 taxes against the Southern Pacific railroad company was filed in the Jefferson county court here by W. L. Weller, Jr., revenue agent for the state of Kentucky.

The petition alleges that that corporation had not paid taxes on its property in five years and that \$1,000,000 is now due the state.

The Southern Pacific is a Kentucky corporation having a "service agent" resident in Beechmont, a suburb of this city, but aside from the franchise obtained to give it corporation existence and such stock and bonds as may be held by individuals, owns no property in this state.

The suit is based purely on its franchise rights, embodied in the power to own stocks, bonds and other personal property.

No Hearing Before October.

The record in the case of the United States vs. The Northern Securities Company, recently decided by the United States circuit court for the District of Minnesota, adversely to the securities company, reached the United States supreme court on appeal and was docketed as No. 696, as telegraphed to the Advocate from Washington yesterday. The docket covers almost 1700 printed pages and is confined largely to the testimony. As the call of the docket has been suspended for the present term, the case cannot be called before next October.

No Word from Garrett.

Janitor George W. Garrett, 34 years old, who disappeared from Newark on April 29, is still missing. At the time of leaving he was employed as janitor at the master mechanic's office at the G. & O. shops, this city, and also carried the company's mail to the other railroad offices in the city. For three years prior to this time he was a waiter at the Hotel Warden. Mrs. Garrett, 56 Arch street, says that when her husband left home he had considerable money and she is at a loss to understand why he should leave, as home life was pleasant and they had never had any trouble.

COUNCIL

CONFIRMS APPOINTMENTS OF MAYOR CRILLY.

Council Will Meet on Thursday Night to Adjust Financial Matters and Issue Bonds.

The special meeting of the city council Monday evening, called by the Mayor to consider certain financial and other matters relative to the government of the city, under the new code, demonstrated that the people have placed a man at the head of its executive department who is capable of directing the municipal affairs, which have been rendered so chaotic by the establishment of an entirely new system of city government. Among the many sweeping changes made by the code is that which renders it illegal to pay out any money unless there are funds on hand. The old council in anticipation of the June taxes made improvements and made purchases amounting to much more than is on hand in the various funds. It was to provide ways and means for meeting these claims that Mayor Crilly called the special session of the city council.

Messrs. Moser, Baker, Hunter, Conrad, Jones, Carlisle and President Rossel answered to the roll call.

Mayor Crilly named as his appointees for the Board of Public Safety, Frank Bolton, four year's term and Theodore M. Ball, two year's term. The appointments were confirmed by the council.

The mayor appointed the following men to serve on the tax commission: W. H. Davis, four years; W. L. Prout, three years; T. M. Jones, two years and H. J. Hoover, one year. The appointments were confirmed.

The following appointments for the Board of Health were confirmed: Dr. Joseph G. Bower, five years; Dr. D. M. Smith, four years; Dr. C. A. Hatch, three years; Dr. R. E. McCullough, two years; Dr. J. P. H. Stedem, one year.

Mayor Crilly addressed the council pertaining to the financial situation of the city. He had prepared a table showing the present seriousness of the case. The mayor stated that there is on hand in the city treasury \$13,248.30 and much more will be needed before the June taxes come in next August.

The following is a condensed table showing the present overdrafts and balances in the various funds and the amount needed to run the city departments until August 1, when the June tax will be in the treasury:

Present Condition.	Amt. needed
Bal. Ovrdrfts. till Aug 1	
Gen fund.....	\$ 6,434.26 \$14,696.26
St. fund.....	67.30 2,249.80
Police fd.....	1,984.73 5,309.73
Fire fd.....	2,269.85 5,924.85
Sanitary.....	5.96 500.00
Gas & Lgt. 7,187.23	
Sewer.....	629.41
Cem.....	866.47
Sink.....	5,611.42
Water.....	2,904.38

Total...\$17,266.21 \$10,696.53 \$28,680.64

Among the special funds the following balances are on hand: Special fire fund, \$6,091.00; water works fund \$2,504.38; Cedar street paving fund, \$2,000.00; North Fourth street sewer fund, \$500.00. The special sewer bond fund is overdrawn \$1,440.11.

There is on hand, including the special funds, \$25,382.94. The total amount of overdrafts is \$12,134.64, leaving a balance of \$13,248.30 in the city treasury. Of this balance \$8,591.00 belongs to special street paving funds, building and sewer funds. These funds cannot be used to run the city during the next three months. Thus there is available money in the treasury only \$4,657.30 for general purposes.

The last council contracted for a new dynamo and boiler for the electric lighting plant. The payments for these are due within the next thirty days. The total cost of the dynamo and boiler will be about \$3,000. Mayor Crilly estimated that at least \$28,650 will be needed to run the city until August.

Mr. Lamb, of the Board of Public Service said that the dynamo was on the tracks in Newark, ready for unloading. The Board of Public Service has refused to unload or to receive the dynamo. Mr. Lamb did not think the dynamo was needed. He believes the contract to be illegal and thinks council should refuse to accept the dynamo if such refusal is practical. He stated that Mr. DeCrow, expert electrician of the Western Electric company, from whom the dynamo

was purchased, had claimed that there are many breaks in the lighting system and that it is not safe to make a test with a high voltage dynamo. Mr. Moser spoke in favor of retaining the dynamo and of repairing the entire lighting system.

Mayor Crilly stated that the complaints regarding the police service are in part true. But it is the fault of the city council. Newark has as fine a fire department as any city in Ohio. Council has never given much attention to the police department. It needs more men and more training. Having these, the mayor said, he will give the city the best police department in the state.

President Rossel appointed J. R. Moser and Charles Conrad as a committee to select the thirty-six jurors to serve in the Mayor's court during the coming year.

A resolution, offered by Judge Hunter, that the jurors be selected from the various precincts of the city and that they be apportioned according to the vote at the spring election.

Judge Hunter presented a resolution that the civil engineer fix grade and ascertain probable cost of building sidewalks on both sides of Penny avenue from Tuscarawas street to the P. C. C. & St. L. railway, carried.

An ordinance providing a clerk for the city auditor at \$40 per month was read and after some discussion was read the second and third time and passed under a suspension of the rules.

City Treasurer W. N. Fulton addressed the council regarding the city money now deposited in banks of the city. Mr. Fulton thought it better to deposit the money in the vaults at the court house, than to loan it to the banks.

Council decided to meet Thursday evening as a committee of the whole to take action on the financial situation and to decide whether to receive the electric light dynamo or not. It is believed that the best manner to meet the changes created by the enactment of the new code will be to issue bonds for \$25,000. In almost every city in the state the new officials have been met with similar grave conditions, and in some cities, such as Columbus, the financial situations have been met with heroic treatment. There street sprinkling has been abandoned in parts of that city and other rigid economies have been enforced. Compared with some other Ohio cities the council and mayor of Newark will have an easy time in piloting the municipal ship of state through the dangerous places.

AMUSEMENTS.

The engagement of Louis James and Frederick Warde tonight at the Auditorium will be hailed with greatest of pleasure, in that the large local following of these famous players will have opportunity of seeing them in characters which they have not hitherto attempted.

The play as already announced is "The Tempest" generally believed to be the last play written by Shakespeare and universally acknowledged to be his greatest work. Mr. James and Mr. Warde will appear in the uniquely contrasted characters of Caliban and Prospero, the former representing in a semi-human form the lower element of man's nature and the latter illustrating his most exalted attributes. There are ways of popularizing such themes as "The Tempest" without necessarily vulgarizing them, as Managers Wagenhals and Kemper have evidently demonstrated from the lavish praise the production has everywhere provoked and the crowded houses it is attracting wherever presented. The surest means of appealing to the popular mind, when a classic play is the issue, is to give the public something that will be a feast for the eye as well as the intellect, an axiom that was taken to heart by these managers early in their career. "The Tempest" has not been seen in this country since the memorable production by the late Augustin Daly, some ten years ago.

The supporting company for Mr. James and Mr. Warde includes a ballet and chorus and such well known players as Norman Hackett, Wadsworth Harris, Thomas Coffin Cooks, Miss Teresa Maxwell and Miss Edith Fassett.

CROMWELL ENTERTAINMENT.

The entertaining and instructive story of the English Reformation in the days of Oliver Cromwell by Mrs. H. E. Monroe is of intense interest throughout.

Mrs. Monroe has spent much time in England, Scotland and Ireland, visiting every spot mentioned in the lecture. She has studied in the British Museum, where she had access to the original documents.

In the summer of 1900 she visited the Paris Exposition, and the costumes of each lady in the third scene (the scene in which the crown is offered to Cromwell)—is a reproduction of the costume worn by some great woman contemporary with Cromwell, thus Anne of Austria, Henrietta Marie, Marie de Medici, etc., the original of these being shown in the Palais de Costume at the Exposition.

The costuming throughout is intended to be part of the great object lesson in history.

The evening opens with an allegorical procession in which Puritan and Cavalier vie with each other in praise to God. Then follows the story of Cromwell and Charles I of England, told by Mrs. Monroe.

A scene at Cambridge University gives the costume of the time and af-

teen students decide that their lives shall be a struggle for civil and religious liberty. Mrs. Monroe continues with an illustrated lecture. A scene in Parliament follows in which Charles I tries to arrest five members, after he leaves war is declared.

Mrs. Monroe continues the story with views. A scene at the Lord's Protector's House, in which Cromwell is offered the crown and four foreign Ambassadors and ladies are received.

The evening closes with the March of Peace in which the participants carry wreaths of flowers, crowning King Jesus Lord of All. Auditorium May 14 and 15.

Quick Arrest.

Chased by an Emperor.

Emperor Frederick William of Prussia sometimes would signify his rejection of what he considered an absurd petition by drawing on the margin an ass' head and ears. One day, a baron of ancient patent having complained of another baron taking precedence of him, the king wrote on the petition: "Mere folly. Whether a man sits above me or below me, my birth remains the same." Oftentimes he would ask people in the streets who they were, a peculiarity which made nervous people evade the royal presence. One day when a man saw the king approaching he took to his heels and ran, but Frederick William pursued him in hot haste and when he overtook him asked, "Why did you run away from me?" "From fear," answered the man, whereupon his majesty gave him a heavy thrack with his cane and said that he "wished himself to be loved and not to be feared."

Why We Say Bandbox.

"The collars worn by the English in the seventeenth century," said an old hat dealer, "were big and round, things a good deal like a ruff. Sometimes indeed they were bigger than the biggest ruff. They required a box of a good size to be carried about in."

"These collars were called bands. Ben Jonson in 'Volpone' says, 'This band shows not my neck enough.' Steele says, 'The next that mounted the stage was an under citizen of the bath, a person remarkable among the inferior people of that place for his great wisdom and his broad band.'"

"Bands, you see, were collars, and by the same token bandboxes were collar boxes. They were big and round, just big enough to carry a clean, well starched band—just as big, in fact, as they are today."

"Whenever, therefore, you talk of bandboxes you are unconsciously referring to the collars as huge as ruffs that the English of the seventeenth century wore."

PICTORIAL LITERARY PUZZLE.

WHAT DICKENS CHARACTER IS REPRESENTED?

Water in the Kalahari Desert.

The bushmen in the Kalahari desert often live scores of miles from places where water comes to the surface. During a certain part of the year sharp storms pass over the Kalahari, covering the apparatus, and region with the brightest of verdure and filling for a few short days the water courses with roaring torrents. The bushmen know how to find water by digging in the bottoms of these dried up river beds. They dig a hole three or four feet deep and then tie a sponge to the end of a hollow reed. The sponge absorbs the moisture at the bottom of the hole, and the natives draw it into their mouths through the reed and then empty it into calabashes for future use.

The animals that inhabit such wastes as the Kalahari are of course accustomed to living upon very small and infrequent supplies of water. The Bechuanas do not lead their cattle to the drinking places oftener than once in two or three days. It is said that goats in the Kalahari frequently pass months without water.

"Blue Hen's Chickens."

Everybody knows that natives of Delaware are called "Blue Hen's Chickens," but not one in a hundred can tell you why they are so called. The epithet is said to have had its origin in the following:

One of Delaware's most gallant fighters in the war of the Revolution was a Captain Caldwell, who was notorious for his fondness for cockfighting. He

drilled his men admirably, they being known throughout the army as "Caldwell's Gamecocks."

This same Caldwell held to the peculiar theory that no cock was really game unless its mother was a blue hen. As the months wore away Caldwell's men became known as the "Blue Hen's Chickens," a title which only increased their respect for the old gamecock captain. The nickname became famous and after the close of the war was applied indiscriminately to all natives of the Diamond State.

A Genius For Friendship.

No man of Johnson's time knew the great city better nor all the varieties of life contained within its walls. He slept with beggars or wandered houseless through the streets at night with a brother poet; he "slanged" a barge-man, laughed and joked with Garrick's actresses or talked "with profound respect, but still in a firm, manly manner, with his sonorous voice," to majesty itself. "I look upon a day as lost," he said, "in which I do not make a new acquaintance." The fact that he never lost a friend except by death shows that he was as tenacious of old friendships as he was eager to acquire new. He had, in fact, a very genius for friendship, and the circle that gathered round him in his later years included not only poets, scholars, and men of letters, but the most prominent painters, actors, musicians, doctors and statesmen in England.—Booklovers' Magazine.

FOR HOLDING HOLIDAY FOR THE CLERKS OF NEWARK.

Dry Goods Men and Jewelers Made a Successful Trial of the Holiday Arrangement Last Year.

The summer season is at hand, and soon Idlewild park will be open for the enjoyment of its patrons; Buckeye Lake park has been brought within 30 minutes of Newark; the Newark baseball club has a number of good games scheduled for the next couple of months; the Y. M. C. A. athletic park has been opened for the benefit of association members, and in fact everything has been done to provide recreation, entertainment and amusement for everyone in Newark during the week, as well as on Sunday.

But what good does all this do if a large part of the population is unable on account of business pressure, to participate in the pleasures offered? There is no class in any city who need recreation during the heated term more and have less opportunity to enjoy it than the legion of retail clerks of the city. Their hours keep them in the store during the day.

Pleasures enjoyed by them at night, in view of the demands made upon their vitality by the duties of the succeeding day, almost take the form of dissipation. The young man or young woman who earns his or her daily bread in the store behind the counter, has six days of routine work, with never a respite from the monotony.

There is a remedy for this, and it is easy to find. Its operation cannot but benefit the employe as well as the clerk, and should commend itself to every thinking man in the city who keeps in touch with modern methods of employment.

In the larger cities the clerks in stores are given a half holiday on Saturday afternoon. This is hardly feasible in a city the size of Newark, but what is the matter with giving them Friday afternoon. Last year the dry goods merchants tried this plan and it worked in a most satisfactory manner. Its scope should be extended, and apply to every retail store in Newark.

W. H. Mazey, manager of the H. H. Griggs & Co. store is an enthusiastic advocate of the humane, sensible and good business policy of giving the clerks a half holiday during the week. The benefits derived from this half day of freedom from the cares and duties of the store, are manifold and affect the proprietors' in-

terests as well as those to whom it is given and for whom it is intended. The clerk returns to the store the day following with buoyant spirits, sprightly step and a mind clear and alert for the duties of that day.

Let the clerks' union take this matter up, bring it to the attention of the store owners, who no doubt will receive the proposition with favor and act upon the suggestion.

Home Testimony

A few days ago one of our leading and best known citizens came in and asked for a bottle of medicine. When we were wrapping it up he said: "That is the best thing you ever brought to the town. I have tried it with splendid results for Eczema and Skin Eruptions which had bothered me for years. Do not hesitate to recommend it."

The medicine above referred to was

BACCALAUREATE

Preached After Commencement at St. Louisville—The Sermon by Rev. Schindel of Newark.

Changing the usual custom of preceding the graduating exercises with the baccalaureate sermon, the class of St. Louisville concluded the week of graduation with this service. To Prof. Miles and others, it seemed best that the final instruction to the class should come from the church. Rev. J. C. Schindel, pastor of the St. Paul's church, preached the baccalaureate Sunday evening in the M. E. church before the class and a attentive audience which filled the church to the doors. He took as his text, "Wherefore seeing we are surrounded by so great a cloud of witnesses, let us lay every weight and the sin which doth so easily beset us and let us run with patience the race set before us, looking unto Jesus." The sermon was scholarly and and practical and was highly appreciated by the class.

REPORT

On the Mammals Collected in Northeastern Siberia by the Jessup Expedition.

The Knickerbocker Press, New York, has issued a report on mammals collected in northeastern Siberia by the Jessup North Pacific expedition, with itinerary and field notes by N. G. Buxton. The pamphlet gives an interesting account of Mr. Buxton's experiences in Siberia. The natural history collections were principally by Mr. Buxton, whose experience in Arctic collecting at Point Barrow, Alaska, on the McIlhenny expedition in 1897-98, had especially fitted him for the work in Siberia.

Mr. Buxton, as is well known, is the talented son of Mr. H. G. Buxton of Johnstown, this county.

A good spring tonic after the heavy foods of winter, is a natural necessity to health and vigor. Hagee's Cordial of Cod Liver Oil promptly cleanses the blood, tones the liver and puts the elements of force and vitality into every nerve and muscle. Contains no grease.
